

Eight Great but Little-known Gardens.

Eight Great but Little-known Gardens looks at some wonderful English gardens that are often overlooked when visiting gardens. However, although not often advertised or put forward in magazines, each garden is unique and worth searching out. Many of the gardens have historical significance and have been restored for your enjoyment.

The gardens chosen include an actual Elizabethan garden, a sublime landscape that is awe-inspiring, a fine example of an Arts & Crafts Garden in Birmingham, a cottage cum wildlife garden, and some truly picturesque gardens.

After this study day you'll be desperate to get out there and visit these gardens for yourself!

CALL is a 'not for profit' independent group promoting lifelong learning in Cambridgeshire.
